Nurseries

Healdsburg, Calif.

Our Catalogue

Containing Valuable Information
Every Planter Should Know
Will Be Sent Free On Application

TO PLANTERS

You benefit by the experience, organization and equipment of the nursery with which you deal. When you buy nursery stock you purchase a live perishable commodity, the genuineness and quality of which cannot be fully determined by casual examination. Consider-

The men who grow, pack and ship our goods have spent years in the business. For twenty-three years we have been engaged in the nursery business at Healdsburg.

From the time young nursery stock is "lined out" in our nursery until it reaches you for planting, a trained, skilled organization is in charge of every stage of growing, digging, packing and shipping. Nothing is left undone and no proper expense spared to produce clean, thrifty, vigorous, well rooted stock.

GUARANTEE—Stock is guaranteed to arrive in a live, fresh condition for planting; to be true to name, and free from pest or plant disease. It is obvious that we cannot guarantee that customers will make trees live, as we have no control over conditions surrounding them and the care they will receive after leaving our hands. If by any chance any stock is not received in good condition please advise us at once.

HALF PRICE REPLACE—Stock failing to grow after receiving reasonable care will be replaced at half the regular retail price providing the Nursery is notified by August first following date of delivery.

APPLES

	Each	10	100	1000
6 to 8 ft.	\$0.70	\$5.50	\$45.00	\$400.00

YUCCA TREE PROTECTORS

Our extremely long, hot and dry summers make it imperative for all fruit growers to shade the bodies of young trees the first season. The most efficient and valuable protectors are made from the Yucca Palm. Soak the bundles in water before using.

No orders accepted for less than 25 Protectors.
